

Belacon Warehousing - We Have North America Covered

Warehousing where you need it and when you need it - that's what Belacon delivers to our customers every day. You'll benefit from working with a single-source provider dedicated to customer service and capable of extraordinary customization options. From a simple storage scenario to seasonal demand and mission-critical needs, Belacon is poised to provide you with solutions for all of your warehousing needs.

The map below highlights the locations of the Warehouses and Depots which currently comprise the Belacon Network. If you seek transportation services, our network has existing fleets at each of our warehousing locations.

Not Pictured: Hawaii, Mexico, Puerto Rico Sites

The Belacon Warehouse Network

The Belacon Warehouse Network spans the entire Continental United States also stretching into Canada, Mexico, Puerto Rico, and Hawaii. **There are more than 175 Warehousing sites in the Belacon Warehouse Network, with over 24 Million square feet of storage space.** We understand that you need to have your assets in strategic locations, so with warehousing locations available across North America, Belacon is uniquely capable of meeting your company or organizational objectives.

We are dedicated to customer service and capable of extraordinary customization options. From a simple storage scenario to seasonal demand and mission-critical needs, Belacon is poised to provide you with solutions for all of your warehousing needs.

- Warehouse locations in all major markets and ports.
- Multiple locations allow Customers to move or relocate product to different locations as your strategies change.
- Seamless operations via a single point of contact who can help you resolve any logistical challenges - including transportation and pooled asset management.
- Ability to participate in the BelaGreen program, to cut down on waste and enhance sustainability.
- Your initial warehousing needs assessment is conducted free of charge.

Consultation Services

In addition, Belacon provides Asset & Supply Chain Management consultation services to Customers. Warehousing inefficiencies and transportation costs account for a large percentage of the total cost of a product, yet it is the first area overlooked. **We are here to assist you in evaluating your current supply chain network and logistical platform to help you reduce costs and maximize efficiency.**
